SUMMARY

Recent B.Tech graduate (2025) with a strong foundation in front-end web development and a passion for building responsive, user-friendly websites. Familiar with HTML, CSS, JavaScript, and basic React, with hands-on experience gained through personal projects. Skilled in creating clean UI designs and interested in UI/UX development, eager to contribute to real-world development teams while growing as a front-end developer.

PROJECTS

● Responsive Portfolio Website

Designed and developed a fully responsive personal portfolio website using HTML, CSS, and JavaScript to showcase skills, projects, and achievements in front-end development. Implemented smooth scrolling navigation, interactive sections, and a contact form to allow visitors to easily get in touch. Focused on clean and modern UI design, responsive layouts for different screen sizes, and user-friendly experience.

● Interactive Image Gallery

Designed and developed a fully responsive image gallery using HTML, CSS, and JavaScript to showcase visual content in an organized and interactive manner. Added hover effects and dynamic layout adjustments for different screen sizes to ensure optimal usability across devices. Focused on clean UI design, intuitive navigation, and seamless user experience, demonstrating practical front-end development skills.

● Interactive quize App

Developed an interactive quiz application using HTML, CSS, and JavaScript to provide a dynamic and engaging learning experience. Users can navigate through multiple-choice questions, select answers, and receive immediate feedback. Implemented score calculation and result display at the end of the quiz to track performance. Focused on responsive design, smooth transitions, and intuitive user interface to ensure an enjoyable experience across devices.
